

Solo

Modular design

Our modular design enables easy component and part replacement when required.

98% recyclable

An eco-conscious and sustainable design, which can be 98% recycled at end-of-life.

Soundproof

Featuring eco-friendly, flame-retardant, sound-absorbing cotton panels which deliver an exceptional soundproofing performance of up to 31 decibels.

Features and benefits

Boost productivity

Providing a temporary focus workspace or private meeting room enabling employees to immerse themselves in their tasks, leading to faster completion times and higher-quality output.

Ventilated

Radar sensing technology enables an automatically controlled ventilation system, ensuring a consistent fresh flow of air.

Easy to move

Equipped with four specially designed lockable castors that enable easy movement, booths can be relocated with ease.

Save space

The introduction of booths eliminates the need to prepare separate rooms for small meetings.

+44 (0) 207 100 1059

A sleek and compact work booth ideal for use as a personal sanctuary for unparalleled focus in the workplace or public areas. Solo provides you with a private space where you can make phone calls, attend video conferences, or have private discussions without disturbing other colleagues.

Whether it's important business negotiations or personal matters, Solo can help you focus on your work and avoid distractions.
