

Meet

Modular design

Our modular design enables easy component and part replacement when required.

98% recyclable

An eco-conscious and sustainable design, which can be 98% recycled at end-of-life.

Soundproof

Featuring eco-friendly, flame-retardant, sound-absorbing cotton panels which deliver an exceptional soundproofing performance of up to 31 decibels.

DDA compliant

Accessible booth range available, adhering to the standards set by the Disability Discrimination Act (DDA).

Features and benefits

Boost productivity

Providing a temporary focus workspace or private meeting room enabling employees to immerse themselves in their tasks, leading to faster completion times and higher-quality output.

Ventilated

Radar sensing technology enables an automatically controlled ventilation system, ensuring a consistent fresh flow of air.

Easy to move

Equipped with four specially designed lockable castors that enable easy movement, booths can be relocated with ease.

Save space

The introduction of booths eliminates the need to prepare separate rooms for small meetings.

+44 (0) 207 100 1059

With a capacity of up to 4 people, Meet functions as a small meeting room in an open office environment, without causing any disturbance to others.

By creating a comfortable and conducive work environment, Meet helps boost employee productivity.

Milliken carpet as standard, with anti-static, stain-resistance and outstanding soundproofing.

Technical specification

Overall dimensions:

1300mm(w) x 2350mm(h) x 2200mm(d)

Internal dimensions:

1200mm(w) x 2050mm(h) x 2050mm(d)

External material:

Colour coated steel plate/hollow glass

Internal structure:

Precision steel section

Front/rear glass:

Crystal double insulating glass door

Door mechanisms:

Hidden hinges/self-closing door

Interior wall filling:

Polyurethane sound insulation material

Interior materials:

Automotive grade sound-absorbing felt/
sound-absorbing carpets

Power supply:

100v-230v (with USB-C & USB-A sockets)

Ventilation:

Discrete and automatic fresh air system

Lighting:

Photoelectric sensing

LCD control panel:

Touch screen to easily adjust internal environment
